

Polymerium ICO

White paper LIGHT ver.

POLYMERIUM ICO is a project to raise investment in the implementation of construction and improvements of POLYMERIUM motor oils plant, the construction of a network of mini-plants for the franchise system worldwide, also the development and improvement of the system of protection from forgery ARMPACK based on blockchain technology.

POLYMERIUM is the existing plant of motor oils in Russia, working since 2015 and sales are growing every month by 5-10%. It has a lot of requests to supply products to different countries.

ARMPACK is a system of protection against forgery which was first applied for the POLYMERIUM Company's products (motor oils and other auto chemistry). At the moment we have signed a cooperation agreement with the manufacturers of cases and accessories for Apple Iphone (Lune Case), also with 9 other companies.

The minimum amount of fees: 500.000 USD

Required fees: 11.000.000 USD

POLYMERIUM token (PLM) released on platform Ethererum, ERC20 standart.

It was released 1.500.000 PLM tokens.
